EDUCATION

University of Pennsylvania, Philadelphia, PA — *Aug 2026 – Dec 2027* (expected)
Master of Science in Engineering
Major: Data Science and AI

Loughborough University, Loughborough, UK — *Sep 2022 – Jun 2026*
Bachelor of Science, with Honours
Major: Computer Science and Mathematics
GPA: 3.89/4.0

PROFESSIONAL EXPERIENCE

The Reformer Studio | Loughborough, UK
Reformer Pilates Instructor — *Sep 2025 – Aug 2026*

- Assessed clients' stated goals against their underlying needs to design and communicate progressive instruction plans
- Classes averaged over 90% capacity, sustained alongside full-time coursework

Staburo GmbH | Munich, Germany
Intern Biostatistics and Data Science — *Sep 2024 – Aug 2025*

- Programmed and validated SAS datasets and reports (SDTM, ADaM, TLFs) against written specifications for clinical trials, following CDISC documentation standards
- Performed quality-control validation of statistical outputs before delivery to clinical teams
- Bridged technical and clinical teams in cross-functional data review meetings, preparing materials that brought together input from multiple sources
- Wrote R code to summarise and visualise quantitative quality attributes of advanced therapies for non-technical stakeholders

RESEARCH

Bias Detection and Mitigation in Predictive Modelling for Healthcare | Research Project — *2025 – 2026*

- Identified a fairness gap in Delphi-2M, a multi-disease trajectory model, and independently defined the approach and evaluation criteria before implementation
- Built an autonomous five-step agent in Python (fairlearn, PyTorch, pandas) to detect and correct ethnic performance disparities in clinical AI predictions
- Designed the agent to intervene only when bias is detected, avoiding new disparities from unnecessary changes by weighing real-world consequences against accuracy alone; awarded First-Class Honours

LEADERSHIP & RELATED ACTIVITIES

Product Space Fellowship, University of Pennsylvania — *2026*

- Working in a team to identify a student need, and build and test an AI tool for campus

Venture Lab VIP-X, University of Pennsylvania — *2026*

- Coursework in market research, customer discovery, and go-to-market strategy for early-stage startups

Society of Women Engineers (SWE) Advocacy Committee Member, University of Pennsylvania — *2026*

- Coordinates gender equity workshops and events; develops new advocacy initiatives for members

FemmeHacks Hacker Experience Committee Member, University of Pennsylvania — *2026*

- Organises and coordinates workshops within an all-women hackathon, focused on maximising participant experience

Trip Leader for Play Action International, Loughborough University — *2024*

Co-Founder and Committee Member of AI Society, Loughborough University — *2023*

- Identified a gap in cross-departmental AI engagement, defined the society's structure and ran events for 20-30 students

SKILLS

Technical: SQL; MATLAB; R; SAS; Python, scikit-learn, fairlearn, PyTorch, pandas, NumPy, matplotlib
Tools: Notion, Figma, Microsoft Excel, Orange Data Mining, Git, Cursor
Languages: Fluent German, Intermediate Mandarin Chinese
